Education

Daffodil International University   2020 - 2023
BSC in CSE | CGPA: 3.52

Technical Skills

HTML | CSS | Tailwind CSS | JavaScript | React | NodeJS | ExpressJS | MongoDB | NextJS | Git

Projects

Lets Your Skill Up - Student and Class Management System   Client Side   Server Side   Live Link

- Implemented a visually appealing home page with dynamic sections, captivating potential users instantly.
- Integrated Stripe for seamless and secure course enrollment and payment transactions.
- Developed distinct dashboards for students, teachers, and admins, each tailored to their specific needs.

Frontend: React, Tanstack Query, Backend: Node.js, Express.js, Database: MongoDB, Authentication: Firebase
Payment: Stripe, Additional: JWT Token Verification, Pagination, Material UI

Plan A Plant - E-Commerce Website   Client Side   Server Side   Live Link

- Crafted an intuitive user interface using React and React Router, enhancing user navigation through plant categories, blogs, and discounted products. Implemented advanced search, sorting, and pagination features.
- Developed a resilient backend infrastructure utilizing Node.js and Express, ensuring efficient communication with MongoDB for seamless data storage and retrieval.

Frontend: React, Backend: Node.js, Express.js, Database: MongoDB, Authentication: Firebase, JWT

FoodSwapHub- Food Donation Website   Client Side   Server Side   Live Link

- Architected a responsive React frontend, ensuring an intuitive interface for donors and recipients.
- Leveraged the power of MERN Stack to create a comprehensive food donation platform, ensuring a seamless full-stack experience for users.
- Implemented a robust authentication system using Firebase and JWT, guaranteeing secure user interactions across the MERN stack, fostering a trustworthy community-driven environment.

Frontend: React, Backend: Node.js, Express.js, Database: MongoDB, Authentication: Firebase, JWT

Extracurricular Activities

DIU Computer and Programming Club (DIU CPC) | Vice President   Jan'23 - Present
- Drove the club's strategic vision, fostering innovation and collaboration while overseeing the successful execution of impactful programming events, enhancing the club's prominence within the university.
- Orchestrated numerous national and international events, showcasing the club on a global stage and creating opportunities for members to engage with the broader tech community.

DIU Computer and Programming Club (DIU CPC) | Press Secratary   Jan'22 - Dec'23
- Led a dynamic press team, guiding members in executing publicity campaigns and managing day-to-day social media operations. Fostered a collaborative environment, resulting in increased club visibility and participation.
